Hi all,

Although this particular product is owned by Clarke, there are other amendments that will fall into this scenario (ie amendments that will need this letter template because the SS/CC are unacceptable) where some of those products are owned by MGK. MGK will not be able to see the PC review because some of the data they are relying on is proprietary to Clarke. **Ex. 5 Deliberative Process (DP)**

FYI, the chemistry review only states: "The product chemistry data submitted for Anvil 2+2 ULV" (EPA Reg No 8329-61) are not sufficient in support of the container exchange program. The product-specific data of storage stability and corrosive characteristics are required to satisfy Guidelines 830.6317 and 6320. "

**Ex. 5 Deliberative Process (DP)**

Let me know.

Thanks for your help and support with this,

Jackie

Hi all,

The enclosure is the PC review which provides the chemist's determination of the bridging argument.

### **Ex. 5 Deliberative Process (DP)**

Enclosure: 8329-61 DP461363 -62 DP461361 -82 DP461364 -106 DP461365 -108 DP461362 by Dehui-Shyam-Kerry.pdf

Note, one review was conducted for multiple products. 8329-61 was the only product with unacceptable SS/CC data. The rest were accepted with the letter that was already reviewed and approved.

Let me know.

Thanks,  
Jackie

Thanks.

What is the Enclosure? Is it the review of their bridging argument and why it is unacceptable? Should reference it in the letter.

**Subject:** PFAS-free Container Acceptability Letter - SS/CC unacceptable

Hi RD IO,

Please see the draft acceptability letter for the new PFAS-free container where the SS/CC data are unacceptable. This letter has gone through Erin and Forrest of OGC and is ready for your review. As a reminder, Clarke is really anxious to get this letter signed and from what I gather they recently had their lawyers ping Mike.

Please let me know if you have any questions.

Thanks,  
Jackie
